

First Name: DR SALEEM

Last Name: IQBAL

Position: RESEARCH ASSOCIATE

Department: BIOINFORMATICS INFRASTRUCTURE FACILITY, JAMIA HAMDARD  
UNIVERSITY

Institution: Jamia Hamdard University

Complete Address: G0, Bioinformatics Infrastructure Facility, Jamia Hamdard University,  
New Delhi-110062

Email: [saleemiqbal\\_ra@jamiahamdard.ac.in](mailto:saleemiqbal_ra@jamiahamdard.ac.in) or saleemiqbal788@gmail.com

Title Of the Project: Identification of novel inhibitors targeting COVID-19,

Keywords: Covid-19, Screening, Drug discovery

Introduction: Global pandemic caused by Covid-19 has caused the devastating effect recently. As per the recent report, there are > 17 lakh cases, and 1 lakh deaths. Keeping this in perspective, I would be designing inhibitors targeting COVID-19 using Drug design. In this context I need to utilize your modelling tool for screening and docking –DockThor for designing inhibitors against COVID-19.

Methods: Computational Drug designing

Perspectives: Designing inhibitors targeting COVID-19

Signature: Saleem Iqbal

Thanking You.

Warm Regards,

**Dr. Saleem Iqbal**
